“ *I'm so sorry for your loss. Mr. Parsley was such a kind, caring person and it was a pleasure to teach with him. He was very intelligent and it was always interesting to talk with him. I will never forget him telling students that he would give them an A if they would write their numbers to one million. It was a lesson many of them learned the hard way (how many a million really was). I pray for comfort for the family.*

“ Mr. Parsley was a real gentleman, spoke eloquently and always interesting. He had a wonderful sense of humor and he was extremely intelligent. When I was in the seventh grade (1979) he spoke about events in the world that could possible happen and now have come to pass. The World Trade Center being one of them and global warming another. The most wonderful attribute about the man was he knew you and would speak and wave no matter where he was. Always smiling. Go Rest High on that mountain, Mr. Parsley, you'll be greatly missed here on earth, but we will see each other again in heaven, brother. Sympathy and well wishes to all of your family.
