“ Judy one of my closest friends from age 14, there's nothing I wouldn't have done for you, I thought of you as my sister, I miss you so much. The other day in my car I was turning the radio station on the xm radio and a memory of you crossed my mind, 4 or 5 months ago we where going down the road Tom Petty station was on, I reach over to change it and you said that was Tom Petty's station along with alot of other choice words so of course I left it there. I have so many memories of you that I will cherish forever.

“ We sure did have a lot of fun and crazy times together. We talked about those days the last time I came to see you. How we even make it to Adulthood? Lol. We had a special bond that could never be broken no matter if we talked all the time or went for long periods of time without talking. You knew how I felt and I knew how you felt. Yea, Sammy did bust us a lot of times and threaten to tell on us, but we would beg, and plead with him until he gave in to what we wanted. He sure loved his little sister and let everyone know not to mess with you or they would have him to deal with. No one messed with you either. He ran all the guys off. Lol. A few stayed around. He was always watching over you. You were his little sister. I sure miss those crazy days. Trying so hard to remember the nicknames Rose Hall gave us the night we all were sick as could be, throwing up everywhere. Sammy got us that night I do believe. Lol. Sandra might remember what they were. I am definitely gonna miss you. You were the best Aunt to mine, and Sammys son Justin. I know who would have thought that would happen after all of that. Lol. You would come get him and keep him for the weekend, and even after you had your own kids you still came and got him, and included him. For that I will always be forever grateful and thankful for that. I know we will see each other again one day but until then I will smile every time I think of you, or hear your name. God please take special care of this one. Love you, always!!!
